EDITORIAL

As this 18th West Hill Annual comes from the press another graduating class regrets to say farewell. From here our paths will lead in diverse directions but our memories of West Hill and of our friends will always follow us.

The years we have spent here have been the most critical years in the history of the world. Warrior nations arose and sought to crush our civilization but were averted by the sacrifice of thousands of young men, some of whom were former students of this School, known and honoured by all of us. May we never forget their sacrifice, the price that had to be paid for the follies of past years. May we never forget the children of Europe whose lives have been blasted by war, nor the countless millions who have been rendered homeless and destitute. And let us always remember that this sacrifice will have been in vain if we allow ourselves thoughtlessly to repeat the mistakes made after the first World War. Still to be overcome is the dreaded enemy who lurks in the green vastness of the Pacific — one who though subdued would be ever ready to rise again should we fail to keep faith with those who fought so bravely for us.

Students who have passed through these portals have helped to preserve our heritage — the gift of freedom, of education and of progress. May the memory of our eventful years passed at West Hill, therefore, help us always to cherish more the ideals for which so many of them died. Let us so live that we shall be worthy of their sacrifice.

PRO PATRIA

J.PARKER

TO A STUDENT OF WEST HILL
A THOUSAND YEARS HENCE

"I who am dead a thousand years,
And wrote this sweet archaic song,
Send you my words for messengers
The way I shall not pass along."

I care not if you realize
We who have gone before do pay;
But there down noisy halls, Time cries,
Win Labore et Honore.

But have you masters staunch and true,
Like those of mine, though changed the day?
Forever may they implant in you,
Win Labore et Honore.

How shall you conquer? Be like men,
Remember this to be the way,
It will not harm to tell again,
Win Labore et Honore.

O friend unseen, without a name,
Though I'll be gone yet this I'll say,
Play up! Play up! And play the game!
Win Labore et Honore.

"Since I can never see your face,
And never shake you by the hand,
I send my soul through Time and Space
To greet you. You will understand."

JOHN GRANT.

John Grant was killed in action overseas in June, 1942. This poem, which he wrote while a student at West Hill, appeared in the 1937 Annual.

WEST HILL STUDENTS OVERSEAS

During the past year 250 parcels of cigarettes have been sent to former students overseas. The cost of these packages has been met by a fund made up of contributions from various activities in the School. The largest came from the Annual Board of 1943, which donated \$500 to the fund.

In 1944 the Annual distributed 900 copies of their overseas edition to former students in the services and will follow the same policy this year.

Many letters have been received at the School from former students in the services.

Excerpts from a few of these letters have been reproduced below.

I am now just finishing a rather extensive course which aims to make me a pilot. Artillery observation from the air is the trick and I have no doubt that you have read a fair amount about it in connection with the American Army who refer to us as artillery "spotters". In brief, our job is to fly a rather slow light aircraft, from which we direct the fire of the guns onto the target. It works identically the same as a ground O.P. but we have the additional advantage of good command and the ability to manoeuvre ourselves into the most favourable position. Actually I have wanted this opportunity ever since I first heard of the Air O.P. and feel that at last I've got the chance to do something really worthwhile.

Lieut. B. D. BAILY,

I am one of the lucky fellows to be stationed here in Bombay. I am working in the Accounts Section of Canadian Headquarters down here. I am very sorry to say that I have not met any brother West Hillians down here yet. I missed Bob Vincent by only a few days when I arrived in this country. Before I came to India, I was stationed in Egypt. While I was there I had the good fortune to meet Ken Hanson, an old West Hill brother. We both wished we could be back there going to school once again. While I was stationed in England, I met a great number of local boys who had attended West Hill. I will mention but a few of them for you: Ross Clouston, Stan Jackson, Wilbur Gee, Wally Drummond, Ian Ormston and many others; we all recalled the happy times we had when we were going to school.

Cpl. ALLAN HUNTER,

There is not much that I can tell you without running into the censors' bad books. I have been to Rome, Pompei, Naples and a few other points of interest. While in Rome and Pompei, the Roman history learned in school, that is, what I remember of it, came in very handy and helped me understand the historic places much better. I will admit at the time I was learning it I did not see much use in it but little did I realize then that a few years later I would be standing looking at the objects I was then studying.

L/Cpl. V. C. LEE,

Thank you very much for the cigarettes. Although I have not yet started smoking, I do appreciate them having been sent to me. I gave them to the other four Canadians in my group (including one who used to go to D'Arcy McGee High—hope you don't mind). So West Hill has four more friends.

We spent a couple of days in London and found things pretty much the same as when we left last August. A friend of mine in one of the suburbs was lucky. The house next to hers was burned out by one of several incendiaries which fell in her district, but her home went right through those rather fierce raids of the past few months without being scarred.

P.S. A little late, but congratulations on winning the rugby trophy again last season. You may be interested to know that Gord Noseworthy was in Northern Ireland—when I last heard of him.

L.A.C. LESLIE O. STEVEMAR,

Just a line to let you know that everything is under control. I think that the more I get away from West Hill the more I think of it. The last leave home I was up to see the place. I do believe there will never be any change in West Hill; even the masters remain the same. (Bless their hearts).

There is one thing I am sorry for and that is the fact that I came home on the Saturday that West Hill played Glebe and I missed the game. However, perhaps I will get a leave next fall and be able to see a couple of games. Nothing would suit me better than to yell old West Hill on to victory.

Mid. BOB PETTUCK,

The cigarettes could not have arrived at a more opportune time. I had just run out of Canadian smokes and welcomed them after the two difficult days the whole crew put in when we parachuted on the Yorkshire moors and mountains. We wandered for 16 hours in our stocking feet in the snow looking for shelter. Fortunately none of us were seriously injured although we did suffer a bit from exposure. This has been the only exciting happening during my sixteen months over here. One thing is certain—the smokes could never have brought better enjoyment than they did to our crew. Everyone of them send their thanks. Would appreciate it if you passed them on to staff and pupils.

W/O ART. J. BARNETT,

I have met a few of the old school mates here and there in England, and, as you no doubt can realize, it usually calls for a celebration. And I assure you that London is one place that you can celebrate in. Since being over here, I have learned as much of England, Scotland, and Ireland as possible, trying to see the innumerable things one always reads about but seldom sees. It is a great refresher for a person to do that and something I am very glad to have the opportunity to do. The next leave I have I am planning on going over to the Continent to have a look over there.

F/O DICK HOWELL,

My tour overseas has been spent mostly in Northern England, although at the moment I am posted to the North of Scotland. I have been able to see nearly every part of England and Scotland, either while posted there or while on leave. It has been a great and wonderful experience.

I would also like to express my sincere appreciation for having received the last School Annual. Definitely this was the greatest Annual that I have seen from West Hill.

F. O. ALLAN V. DUNBAR.

I was greatly surprised to learn of the large number of ex West Hillians that are in the Services but I have run across quite a few over here. In our squadron, there are 3 of us, F/O Johnny Shum, F/Lt. Cliff Morse and myself. Cliff is my boss, being a technical officer, and Johnny is flying.

I've been up to Edinburgh three times now, and tomorrow night I'm heading for London for 12 days. The last time I was up North I ran into Ken Smith and Bev. Bailey. Guess you remember them, don't you? My pal Bill Temple (West Hill, '38 or '39) and myself spent the evening at Bev's Hotel and we covered quite a bit of territory in one way or another.

L. A. C. H. C. PAQUETTE.

You might be interested to know that my very dear friend Robert "Bob" Whyte (Class of '37) was killed in August of this year (1944) in a flying accident in a Mustang. As he too was in a British Unit, you probably will not hear anything about it. He was a prisoner of war for two years and just escaped about a year ago. He was a fighter pilot shot down in North Africa.

Mid (A) D. R. BROWN.

You may be interested to know that I have been in on these recent carrier operations off the coast of Norway, with which we have been attempting to divert the "Hun" and cripple what is left of his sea power. It was a very interesting time, but no matter how successful the job or how short a time we are away, on returning to harbour, the greatest thrill is to receive letters with all the home news.

Lieut. Ken Linn-Smith.

I have been in training for my commission since June of last year. I have now completed 11 weeks of a 26 week course at the Royal Military College (Sandhurst). I expect to graduate as a full Lieut. in June but even then we have a further 11 weeks training to do before we get posted to a regiment. I am being trained as an Armoured Corps Officer even though I did spend 3 1/2 years with the Canadian Forestry Corps.

Cadet P. F. DUNRY.

THE ALLAN HALL MEMORIAL TROPHY

This trophy was donated by an intimate friend and classmate to perpetuate the memory of Allan at West Hill, and to imbue others with ideals of clean sportsmanship and fair play.

Allan Russell Hall was an outstanding athlete at West Hill High School and was very active in promoting school activities. By his example and leadership, he inspired his teammates to play the game hard, fast and fairly.

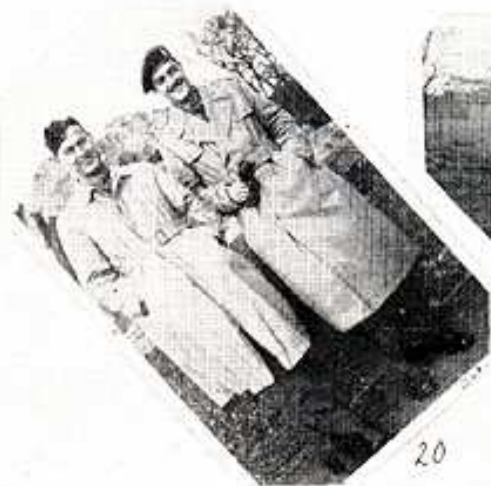

Allan Hall graduated from West Hill in 1941 and enlisted in the R.C.A.F. He received his pilot's wings and commission at Uplands in 1943 and was posted Overseas. He died on Active Service on October 13th, 1944.

The memorial is presented each year to the athlete who sets a high standard in clean sportsmanship and who, through precept and example, inspires his teammates to greater achievement.

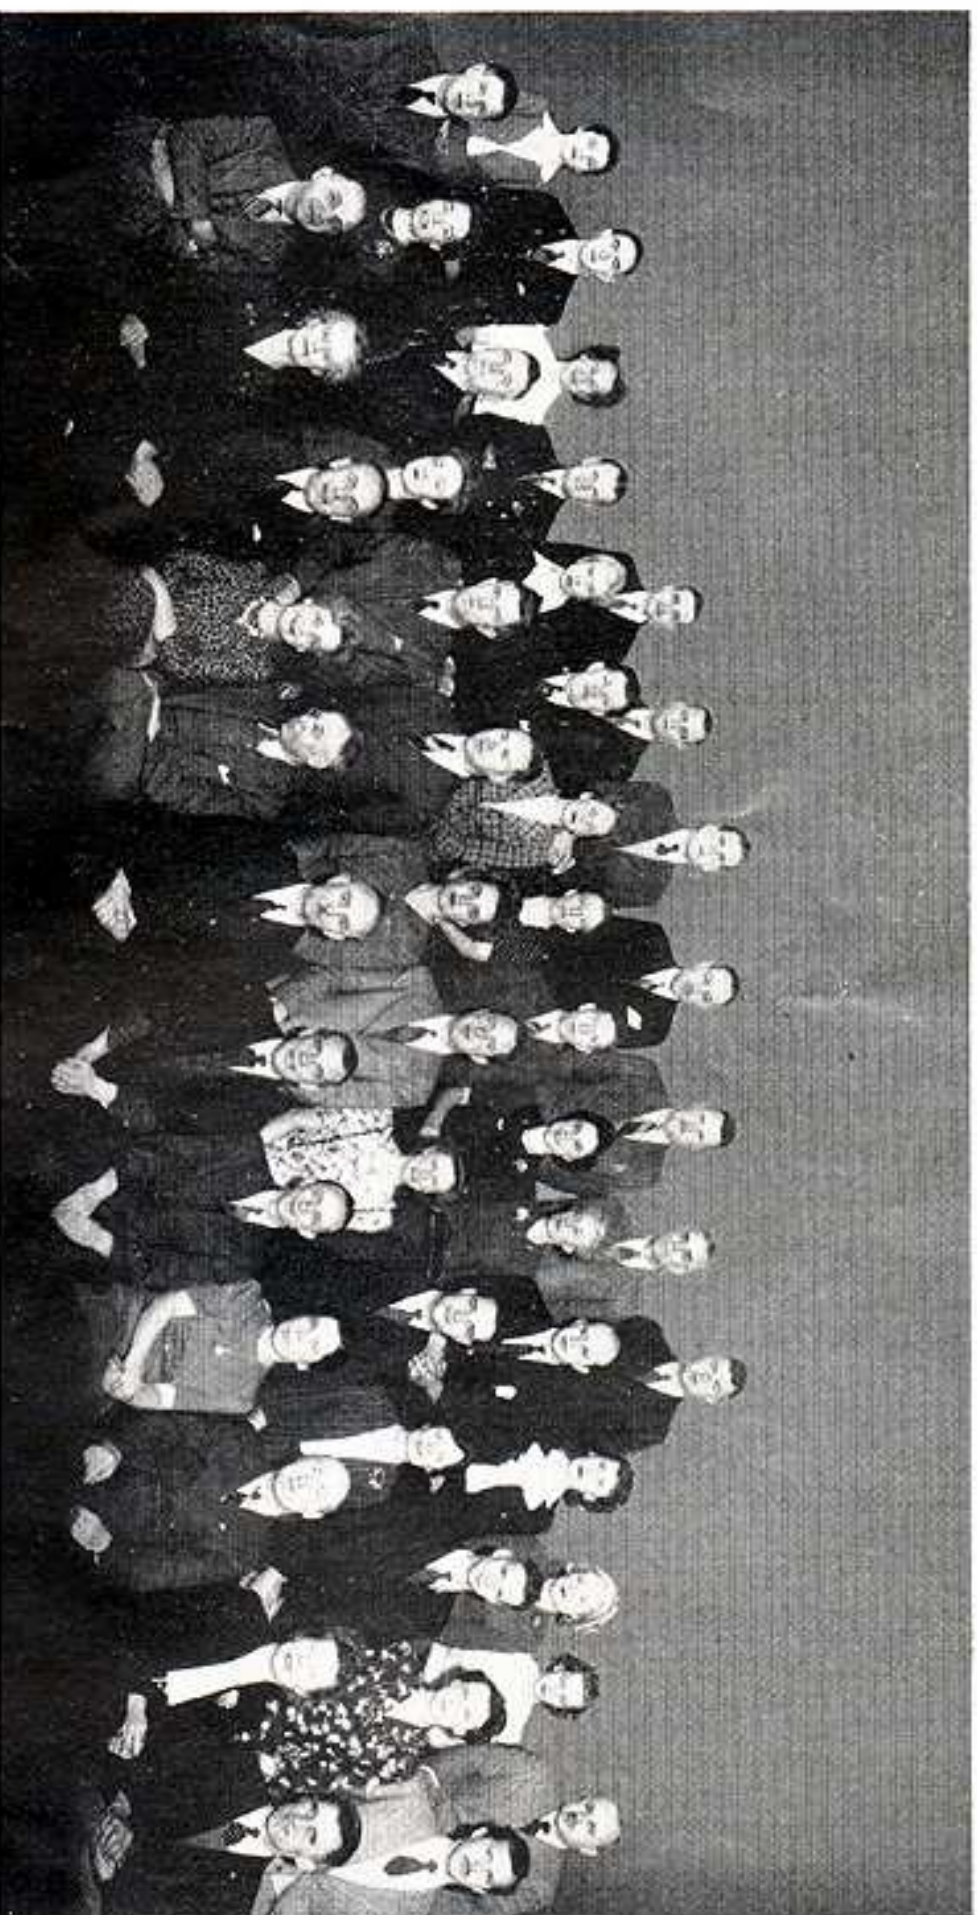

It is hoped that this trophy will be an inspiration to West Hill students to live up to the great example set by one of the Old Boys—Allan Russell Hall.

LITERATURE

TEACHER — PUPIL ANSWER SECTION

MR. WILSON—

THE IDEAL TEACHER

From the pupils' point of view it is doubtful if any one person could fulfill all the requirements necessary to qualify for the title of an ideal teacher. The standards by which pupils judge the latter are variable, and not always clearly defined. So many factors are involved that it would be impossible to set them down and follow them, as one is supposed to do.

Popular belief to the contrary, there is no such individual as a born teacher. Would it not be just as ridiculous to say that a person is a born plumber, or a born salesman? Perhaps the remark originated in the minds of people who entertained the idea that the teaching profession was clothed in a special dignity of its own, and that it was complimentary to remark that someone was born for that type of occupation. Of course, those who make such remarks are not members of the teaching profession.

Let us then try to discover what essential qualities must be possessed by one who would aspire to the honour of being dubbed an ideal teacher by the pupils. At the same time a warning note should be sounded, for the path is crooked and beset with thorns. The would-be recipient must bear in mind that such a laurel, once received, cannot be lightly put aside. The higher one climbs, the farther one may fall.

The prime essential is courage. My readers—I flatter myself that there will be some—will lift their eyebrows in disdainful scorn. However, I repeat that courage is essential. The courage to enter a classroom, to face a barrage of critical, calculating, quizzical eyes, to attempt to impart subject matter, to keep pupils in a receptive state during the lesson, to discipline the rebellious ones. Last, but not least, the courage to admit that one is wrong on occasion. Picture the timid soul attempting to carry on under such handicaps.

A sense of humour of a very special kind should be placed next on the list. A very special kind, indeed, is necessary in order to be able to appreciate the brand of humour in which pupils indulge, so seldom original but so uproariously funny to them. The mistake must never be made of informing a class that one has something amusing to tell. There is sure to be trouble ahead; a critical frame of mind has been induced; the meekest pupil in the class has decided that what he is about to hear could not possibly be termed amusing. For some intangible reason pupils prefer to be challenged. One is usually sure of appreciation if remarks are preceded by "I don't expect you to find this amusing."

The ability to remain impartial might be included next. What is the pupil's definition of the word? The ideal teacher must always understand the pupil's point of view, no matter how illogical. The supreme test comes by showing the pupil that there are two sides to every argument. If this can

be accomplished, part of the daily struggle has been won.

Nothing can condemn the aspirant as much as the criticism that he is not a good sport. I defy anyone to obtain a satisfactory explanation of the term as used by pupils. It may mean the ability to overlook petty annoyances, to maintain a controlled reserve in the classroom, to accept the friendly advances of pupils outside the classroom, but never to seem eager to have such an offer, or to be interested in all their doings. It is fatal to adopt a fraternal or parental attitude towards them. Their desire for adult companionship and advice must emanate from them.

A dash of acting technique is a distinct advantage, but must not be too pronounced. Control of one's facial expressions is much easier to maintain if this trait is present. Then, it is no test at all to hide one's real feelings from the pupils on some particularly trying occasion. They will be disappointed, but the teacher's stock will have risen a few points.

Criticism, mostly indirect, will be frequent. To ignore it is a wise plan, to attach any importance to it is a step backward in the contest. One must never forget that young people are the severest critics that can be found anywhere.

In the foregoing, no mention has been made of the necessary academic qualifications. It is most likely that pupils are but slightly interested in those matters. The goal is difficult to achieve for it would be unusual to find anyone who could measure up to the standard set by pupils. No rules are devised, no handbook is supplied. The candidate must walk alone. DUDLEY B. WILSON.

MISS FRASER—

WHY DO WEST HILL GIRLS WEAR UNIFORMS, WHILE THE BOYS DO NOT?

This question may have varying answers, but the following reasons may cover it, at least in part.

The W.H. girls wear uniforms because they are a suitable and economical form of dress for school. A boy's uniform would be definitely more expensive and might be very difficult to obtain, especially in war time.

Uniform wearing prevents competition in dress among the girls, thus sparing the feelings of those who cannot afford a great variety of clothes. This type of competition is much less prevalent among boys.

Uniforms remove the worrying problem of "what shall I wear today?", which does not disturb boys to the same extent; while the feeling that each girl has of being dressed just as well as anyone else leaves her mind free to deal with her studies—perhaps.

The improved appearance of boys who wear uniforms as in cadet drill, makes one wish that this was a regular custom. Even a modified form would

help—such as a uniform sweater in the West Hill colours for winter and a similar style of shirt for summer wear—and would give a more pleasing effect than the present lack of uniformity. It might even assist in the growth of that mysterious thing known as "school spirit", which is sometimes represented by "the old school tie". A. I. FRASER.

MR. BRASH—

WHAT ARE THE BENEFITS OF A HIGH SCHOOL EDUCATION?

Nowadays a high school education is almost as important for a boy's future progress and success as food and drink are in producing health and vitality. For this reason attendance at school has been made compulsory for pupils up to the age of fourteen, and it may soon be extended to cover the complete four year high school course. Educational authorities realize that an uneducated person may mean a life wasted for only exceptionally bright people make up the leeway in education lost in youth.

Many younger pupils consider compulsory attendance as an imposition, even an injustice: schools and teachers are to them the clouds that hide the sunshine of life. Soon they will realize the truth of the old Chinese proverb that "all sunshine made the desert".

It is therefore necessary in high school that the pupil be introduced to many subjects and courses, teachers and specialists, for, in keeping with the times, the subjects on the high school curriculum have become more diversified and more practical. In addition to the traditional four: English, French, Latin, and Mathematics, we now have Practical Science, Biology, Social Studies, Oral French, Physical Training, Instrumental Music, Mechanical Drawing, Speech Training, Dramatics, Airmanship and others. If a youth has perseverance and average ability to benefit from this training, he will be fitted, mentally and manually, to face the problems that lie ahead. For he will have learned to reason logically, to calculate accurately, to write coherently, to speak correctly, and, it may be, to play on the bass violin.

But all this will not be accomplished without mistakes, disappointments, and misunderstandings. These, too, play an important part in the process of training. They help to level out the rough. From the forge of everyday difficulties, character is moulded and a finer attitude towards life developed.

Out of his schooldays' experience
He has shaped for himself a box;
Though he took many years to make it,
It now has a lid that locks.
Into this go the errors and failures,
The struggles and conflicts with truth—
They have clouded the sunshine of morning
But they brighten the noonday of youth.

Four or five years spent in close contact with teachers and fellow pupils, whether in the classroom, playing field, or council meeting, should also have shown youth the importance of tolerance, sympathy, and understanding. In addition to mere

book knowledge, from the high school course of study should come a strengthening of character and an added confidence in oneself to face life courageously.

Great are the benefits of a high school education for those who "pass" through the front door at graduation. Those who do not may have missed the greatest benefit of all.

Since the world needs educated, morally upright youth to guide it in paths of progress and peace, every young Canadian should strive for a very high standard of education. J.G.S.B.

MR. SHUPE—

IS THE PRESENT SCHOOL CURRICULUM ADEQUATE?

A common criticism of a High School education is that it is adapted to the few who will enter the University and the needs of the many are sacrificed to those few.

In order to solve this problem, there must be the utmost co-operation between employers, teachers and the universities.

For years employers have demanded a matriculation certificate for those whom they employ. The employer demands the certificate; the boys must have them; consequently education in the secondary school is unaltered. This keeps the syllabus of the High School similar to that of the University. If the employer desires to improve education, let him ask the Principal for a school certificate, read it carefully and digest it. A little trouble on his account will assure the best candidates for appointment in his business.

Changes are essential in order to improve education. There must be experiment, but it must be recognized that experiment will not always be successful. Unsuccessful experiment should be immediately discontinued. Education is dynamic, not static. Change for change sake is to be avoided—but there must be a steady building of the new on the best of the old foundation.

A search should be made for the bonds that join subjects together. Why should Algebra and Arithmetic be taught as separate subjects, running concurrently, when there is no logical difference between them?

A subject which needs to be overhauled and reciprocally related with science is mathematics. Although there may be excellent mental training in the exact proofs of Geometry, the course is too detailed and isolated. The problems need to be correlated with those which occur in ordinary life and science. The Physics teacher, in the teaching of heat, mechanics and light, is continually solving algebraic and trigonometric problems, simultaneously the mathematics teacher is setting problems which have no bearing on anything in particular.

The obvious solution is to treat mathematics as a science subject, to simplify it in some ways and extend it in others.

Other secondary school subjects undoubtedly could be more thoroughly co-ordinated. S.

MY EXPERIENCES AS A CHEERLEADER

Don't ever be a cheerleader. With a strong will you might do it safely for one season, but you cannot stand up under the strain of two consecutive football seasons. After a time the game becomes an obsession. Knowing the boys, their hopes, their fears, trying with them to deceive the other team as to extent of injuries, all has an effect on you. I remember one reporter in particular, who kept questioning me before the finals as to whether three of our top players would be on the field. It made me feel like one of the team. I do not claim to know any more than the minimum about rugby, but I am trying to point out how the game becomes a part of you.

It is a typical, crisp fall day. Seven of us are packed into a coupé, four in the rumble seat. The wind bites our faces and whips the red and gray lapel ribbons high in the air. Our spirits are at top peak. Westhillians on Monkland Avenue, westward bound, laugh at our blaring horn and boom-chica-boom, and they wave as we go by. We park the car at the Loyola grounds and cross the field, pausing for a moment with a glow of pride as the boys run through their plays. Then, as they file into the clubhouse, we move on to the stands.

Down by the bench, you can follow the game by the expressions on the boys' faces. There is a do-or-die attitude that seems to seize them as soon as they hit the field. They will play with cracked shoulders, broken ribs and wrenched knees once the game has started. Nothing stops them. That is what makes you wait in anticipation for days, makes you huddle in the pouring rain to watch them play, makes you cheer till you think your heart will burst when they win, and when they lose makes you stand in the shadow of the field-house and cry. Others are crying too—not because we have lost. We are not poor losers. It is because there is an indefinable something which tells you that the school is not so much behind the boys—because they fought hard with almost every man at least slightly injured. It is because you have seen the disappointment on the faces of some—the sheer incomprehension on those of others. And the boys helpless on the bench, what could they do? Nothing. Therein lies the bitterness with them: there was nothing they could do. They had to sit back and watch their "invincible, undefeated team" lose.

But that is not all there is to football for a cheerleader—it is Howie's sweater with the sleeves six inches too long, Harold's squirrel tail hat, G.B.'s bright orange sweater; it is Swish charging into the goal-post, Coach Chesley's rubber boots and windbreaker, B.R.'s red stockings; it is quarterback Barclay playing with the ball with his one good arm, the blonde photographer. Being a cheerleader is fun—there is only one thing better—being a boy and playing football yourself.

BETTY BREWER, XII

THE CHIEF WOE OF THE WARTIME GOLFER

However bad the conditions of the fairways and greens, or the shortage of caddies, the chief woe of the wartime golfer is still the much cursed golf ball. This little pellet is the most important feature of the game. In peacetime, balls were sufficient in both quality and quantity. First quality went, and later quality. No matter what the optimist may say, the wartime ball is definitely not as good as its predecessor. The expert can no longer hit 300 yards regularly; the dub can hardly roll them fifty.

The type of golfer hit hardest by the shortage is naturally the dub. One or two rounds and he has worn the cover off the contemptible wartime ball—if he hasn't lost it before this. When the poor golfer wants to obtain a new ball, if there is one to be had, he must turn in an old one, as well as paying for the novel contrivance. Sometimes the ratio of old to new may be even greater than one. To men of mathematics such proceedings cannot last forever and the supply of the missiles must diminish.

A few golfers have found themselves in the unfortunate state of having to quit the game because their supply reached the zero mark. Unless they can get a couple from a friend, or perhaps find one (a highly improbable feat, as most golfers spend at least half an hour searching for a pellet that has dropped into the rough), they cannot resume play until "après la guerre".

Although the majority fare a little better than the sad cases mentioned above, the situation is far from favourable. Yet this small inconvenience is just another of the many calamities brought to the world by Hitler, Mussolini, and Tojo, who obviously are not supporters of the Royal and Ancient Game called Golf!

FROM THE CRADLE

or

Evolution of a Temperament

Idly skimming through one of those "home improvement" magazines, I read a rather stuffy article entitled, "The Effect of Environment on the Development of the Young". It seems, according to this authority, that the colour of the walls, the type of furniture in the room, etc., will, in time, affect one's temperament. This caused me deep concern. If variety of environment counts for anything, then I shall certainly be a many-sided character.

I can't remember my first frill-and-ribbon background, but it no doubt accounts for my weakness for the trimmings of life—whipped cream, chocolate fudge, handmade socks and reading in bed.

My earliest recollection is my term in the "den". This sad, funereal room was somewhat in the nature of a family museum. It housed the odds and ends of too great sentimental value to be thrown out and yet not quite rating a room. I fitted into this category perfectly. But the "decor" had a chance to grind away at my character and I see signs of its influence in my morbid mood the night before a French or Algebra test.

The family social life overflowed into the den and I was old enough by then to be "tried out" in my uncle's room. Uncles range from the bearded, musty type to the gay, bachelor boys. Mine was of the latter variety. He treated me as an equal and I grew up several years in that six months. It was too good to last. My mother did not take kindly to my expanding and colourful vocabulary and the hours I spent in that delightful tobacco-smoke atmosphere were not her idea of what was good for me. I was either too young or too old to share my uncle's room with impunity (I have never discovered which). My uncle, too, was showing signs of strain from tip-toeing around when he came in at "interesting" hours. This was an experience of short duration, but to it can be traced a devil-may-care streak in my makeup.

It was decided that the time had come to give me a room to myself. The guest room was to be mine. My family could have expected none but female guests. The room was shabby but "dainty". Everything had slip-covers—mostly to hide the cracks, although they couldn't hide the creaks. My forebears looked down at me from the walls—bald, bearded gentlemen whose blood runs in my veins but whose identity is still a bit vague. The wallpaper was the last straw. Roses! With a little persuasion it was agreed that I could re-paper the room—choosing the paper and putting it on myself. I chose a sky blue. My mother moaned something about spotting and fading. My uncle's comments are unprintable. My grandfather thought it a fine choice—he is still under the blissful illusion that it is green.

Paper-hanging is an art which I never hope to acquire fully. Walls are not always straight; there's an upside-down to paper, which is only discernible after it is stuck to the wall; glue has a way of getting out of control and sky blue paper "spots"—it spots like . . . well like sky blue paper. There are three upside-down pieces on the walls, but somehow they give the room that charming irregularity of real handiwork. Now that my collection of aeroplane pictures is stuck up, most of the imperfections are hidden. I glued the pictures around the room in a border effect and then scattered the others around the walls at random. The blue paper makes a perfect "sky" background and the whole effect is breath-taking. My mother gasped for a full minute when she saw it. "Imagine a guest room like that." "Imagine Aunt Ethel sleeping in there?" As no one could imagine anything so unlikely, it looks as though I have decorated myself into full possession.

The influence remains to be seen—shall I be air-minded or just light-headed?

WEST HILL AT HERBERT SYMONDS

Hello, you fellows over there at West Hill. This year we, at Herbert Symonds, want to thank the Students' Council for enabling us to come to West Hill on so many occasions. It makes us over here more attached to you who are over there.

Sports at Herbert Symonds this year were not rationed. Mr. Jardine helped the boys in the formation of a soccer team, hockey team and a swimming team. Basketball, badminton, etc. were also organized not only for the boys but even for the girls.

Again, this year, the eighth grade published a school newspaper under the supervision of Mr. Ferrabee. Typography and printing were directed by Mr. Kneeland.

Miss Flack and Mr. Parker left Herbert Symonds during the course of the year. Mr. Parker succeeded Miss Flack and now Mr. Trueman succeeds both. Our English Literature, Geography and Composition teacher was Mr. Ferrabee. Mr. Thompson ("Tommy" to the boys) was our History, Algebra and Arithmetic teacher. Mr. Jardine took Science.

Mr. de Belle, Principal of Herbert Symonds, has co-operated on all occasions with the boys and has quickly become a great friend of the entire high school body.

We hope that the above material has given to the boys of West Hill, a bird's-eye-view of the "eighth grade" at Herbert Symonds.

Dumb question of the week:

WHAT MUSIC MEANS TO ME

Music is the most perfect expression of human thought. There is music for every mood: happiness, despair, sorrow, etc. It runs the whole gamut of human emotions. Music sends me to the enchanted realms of happiness and peace. No matter how unhappy or how despairing I am, music restores my equilibrium.

I prefer classical music to any other type of music. The old masters somehow captured and held the essence of human happiness and suffering in their music far better than anyone since them.

I have a favourite composer for every mood. When I am low in spirits because of writing an exam or receiving a report, I go home and put on the gramophone. As the glorious strains of Tchaikowski's Concerto in B flat minor are heard, my depression vanishes, and I am lost in the world of music. If on the other hand I am happy, I play Chopin, Strauss, or Lizi. I play Wagner for serious thinking, Mozart for happiness, Mendelssohn for the careless mood, and so on. That is what music means to me; it can capture my soul and make me happy no matter how I start out.

I listen to music whenever possible. Every

concert, every musical programme to which I can listen adds one more happy fragment to my list of memorable moments.

My imagination holds full sway over me when I listen to my favourite music. With scarcely any effort, I can transfer myself to any part of the world and be anybody and do anything I please. When I hear the lilting strains of "Carmen", I am in Spain, I love with Carmen, pour out my love as Don José does. "The Barber of Seville" makes me Rossini or Figaro, Basilio or any one of the characters. They become living people to me, not just characters created to amuse and delight the world.

Music portrays my thoughts and dreams better than I am capable of doing. Music to me is the sublimest effort of mankind to express the hopes and fears of all the world. No other art reaches the heights of perfection that music does.

Music is the universal language of the world. Through it we may reach the highest height of happiness that it is possible to reach on this earth.

SOME WARTIME DEVELOPMENTS IN SCIENCE

Under this topic, I shall speak of many of the wartime developments in aeronautics, radio, chemistry, medicine and engineering.

More new developments have taken place in aeronautics than in any other field of science. At the beginning of the war the high speed and the great carrying power of the present airplane was unknown. Existing airlines were short and the number of passengers carried small. At that time transatlantic flights were difficult. Now, because of the better type of aircraft now in use and because of the instruments designed for the aircraft's safety, world-circling air routes have been planned. This has been made possible by the developments in aircraft and air navigation which have been made during the war.

Modern war machines require a large amount of electronic equipment. Radio industries have adapted their wartime devices for the post-war market. For the last five years electric companies have been improving their products. Knowledge from the present experimental frequency modulation and television stations will bring to the public better radio entertainment. The electron microscope has been a major electronic invention. Radio beams to help our air navigators, better electric light bulbs that last longer, and improved radio reception have been among the recent developments.

To meet the needs of fighting men, improved farming methods and more complete foods have

been discovered. Better fertilizers and better prepared foods for livestock have come on the market. Dehydrated foods have taken a more prominent place on our grocery shelves because of their greater convenience and because of the ease with which they may be shipped. Improved canning methods keep more of the food value in canned foods now. These new developments in the food industry will help relieve the starvation among the peoples of occupied Europe.

The need for stronger and lighter metals has brought magnesium and aluminum to the forefront. Since electric power is needed to manufacture aluminum, its post-war uses are of particular interest to us in Quebec. The huge Shipshaw project is a start for a future heavy metal industry in Canada. Large deposits of high grade iron ore are now being worked in western Ontario.

Engineering has developed during the war. Engineers now have better road and bridge building techniques. The shipbuilding project in the United States is a great success and is a great triumph for the engineers of that country.

The new sulfa drugs and penicillin have saved many lives. To save wounded men, doctors have developed new surgical methods. The chemists have synthesised quinine and other essential drugs, making them cheaper and more easily obtainable.

We owe a lot to the chemist, physicist and engineer during this war. They caught up with the Germans who had been preparing for at least ten years and soon overtook them with newer and better weapons and mass production. They will continue to serve us in peace.

SO YOU DON'T APPRECIATE GOOD MUSIC?

"Music hath charms
To calm the savage breast . . ."

In the ranks of modern youth, you will find very few patrons of one of the finer arts—good music. These lovers of good music are usually referred to as "ickies" or "long hairs" in the language of the jitterbugs. But why should there be this uninterest? Is good music too slow in tempo or too fancy in form for modern youth? What is the cause of this lack of love of symphonies, operas, and concertos?

We do not appreciate this form of the most romantic of all arts because we do not understand it. It is not necessary to take up a study of counterpoint, harmony, or other musical branches merely to enjoy it; but if we could picture the conditions suffered by the composer or the story behind the composition, then we would learn what a fine and pleasing form of enjoyment we have.

Some people are under the impression that you have to be born with music in you to really appreciate it. In at least one case, though, the old adage is contradicted and a musician was made, not born.

Claude Joseph Rouget de Lisle was a poet, and had scant musical knowledge. While a young engineer officer at Strasbourg in 1792, de Lisle was requested by the commander of the French Forces of the Rhine during the Prussian invasion to write a battle song. Named after the city in which it was introduced, "La Marseillaise" was the battle cry that filled the Tuilleries, and was called "The Song

that killed fifty-thousand Germans". His inspiring song became famous.

I despised the Opera until one day I read the story of Gounod's "Faust". Ever since then, I have eagerly grasped at every opportunity I have had to go to hear this and other famous operatic compositions.

You will agree with me that if you try to understand, to look at the consonant and not the dissonant side of music, you will appreciate it more.

The ships are all at sea;
Many a boy will die
In the fight for liberty.

The job is not yet done,
There's still a hill to climb.

WISDOM AND KNOWLEDGE

Wisdom and knowledge mean a great deal to me. I am neither wise nor learned. I know I never can attain the power of meditation and reasoning that so many people possess and have possessed through the ages, but I can study their thoughts that have been recorded on paper and I can draw my own conclusions. If Socrates were alive today, and could visit our school, I have no doubt but that he would be appalled at the casual way in which we accept the knowledge which he and other great philosophers and mathematicians have passed on to us. We take everything so for granted; we don't realize, nor do we want to realize, the years of patient toil and labour that our ancestors spent, thinking, reasoning, arguing both with themselves and others, trying to see the light, and, some of them, finally being put to death for it. Through their efforts, we, today, rise in the morning and go to school, grumbling to each other because we must learn about people who lived over two thousand years ago. These ancients were alive, even more so than we are today, and they lived and died just as we must do. They differed from us in one respect. They had ambition—a burning desire to know the truth. They sought it, and they found it!

Anyone who does not want to learn is to be pitied. Life isn't worthwhile without knowledge, and with knowledge comes wisdom. To live, day by day, in one's own little community, attending church on Sunday, half-listening to the sermon, and going to the theatre, etc. . . . is all very well, but something is lacking. What of the human suffering that is going on all over this vast world? What of the cruelty and hardships that some people bear all their lives? I do not think that it is right to shun knowing about these. I believe that a person who has suffered in some way is richer than the person who has not. I want to travel. I want to meet people and know them, study their characters and from them, learn what life is. My own life is small and insignificant, but I must do the best I can with it, and mould my character into one that is both wise and learned.

BARBARA SMARDON.

A PHILOSOPHY

I've never had the urge to live
 The life of a potato.

 Sometimes I'm quite contented

WESTHILL'S DOWNFALL OR BONEHEAD FUMBLES THE BALL

(with apologies to Casey at the Bat)

The game had a doubtful outcome
For the Westhill team that day.
The score was four to nothing;
About a minute left to play.
The powerful Red and Grey team
One yard from "pay dirt" stood.
And it seemed that one more line play,
And they'd crash by those posts of wood,
Barclay called the signals,
The backs ran to and fro.
Finlay plunged by to the line
Still one yard—goal to go.
On second down they fared no better.
The enemy rocked with glee.
Team back, "Hup 1-2-3-4-5"
"Third down!" cried the referee.
Macphail was stopped on his third down bid:
The ball still one yard out.
"Come on, give us a touchdown",
You'd hear Westhillians shout.
Time out was called by Westhill
One play to them was left.
Would they score on their last down?
Or of five points be bereft.
All eyes turned to the bench
For what would Chesley do?
Would he give his team instructions?
Or send in someone new?
Coach Chesley motioned to the bench,
Up jumped a mighty frame.
Six feet two—two hundred pounds,
Bonehead was his name.
A che-hee che-ha for Bonehead
Was heard above the din.
"Why he'll crash through for Westhill
We're surely bound to win."
So Goliath ran upon the field
For that all important play.
Will he score? or won't he?
I'm sure no-one could say.
But to Westhill's cheering section
It was clear as clear can be.
One yard was easy going
For one as big as he.
Bonehead in the backfield
"Team Back", was Barclay's call
We'll use play number seven
With Bonehead carrying the ball.
Behind the line, a wall of stone,
And backs in top condition
Stood Bonehead, a gorgeous "hunk of man"
All mighty in position.
Here it is; the test had come,
A snap, and then he plunged.
For Westhill's lone Goliath
Each enemy David lunged.
Oh somewhere there's a school, I know,
Where happy pupils play
Somewhere there's excitement

And hearts are light and gay.
Somewhere boys are laughing,
And somewhere lovebirds call
But there's no joy in Westhill,
Mighty Bonehead fumbled the ball.

IN DEFENCE OF A PIG

Why do they always pick on a pig?
You'd be dirty too
If you lived in a pen about so big
All full of mud and goo.

Why do they always say they're fat?
You'd think they'd realize
It ain't their fault that they're like that
They get no exercise.

They say that pigs should be more quiet
Well here's a bright suggestion
The only answer is their diet
They must have indigestion.

While mares eat oats and does eat oats
And little lambs eat clover
Why do they go and feed the shoats
The stuff that's just left over.

A baby pig is just as dear
As any lamb or pup
So, good mothers, shed a tear
For piggie's bringing up.

ART SCHOLARSHIPS AWARDED

Some day we'll probably be able to say, "We knew them when . . ." of four of our art students, Louise Cass, Barbara Hodgson, Patricia Mooney and Bill Langstroth. They were all awarded scholarships this year by the Montreal Art Galleries. These scholarships entitle each winner to a year's free tuition in their further study. We are truly proud of their achievements in this field and hope they will be successful in all future efforts.

Several of our former students have become well-known in the field of art. John Collins is the excellent cartoonist for the *Montreal Gazette*, while Jack H. Bush is one of the leading commercial artists in Toronto. It is, therefore, not too much to expect that these, our own classmates of today, will become great artists of to-morrow.

MARY FRICKER.

A TRIBUTE

With a deep sense of the loss suffered by our School, we record the death of Miss Margaret L. Macdiarmid, who was for many years a member of the Staff. Her colleagues and all her former pupils know the thoroughness and earnestness with which Miss Macdiarmid performed her work as a teacher. But not all may realize how far, and how generously she exceeded the routine requirements of her work; how, for instance, she gave lessons on Saturday mornings at her own home to a group of girls who wanted to prepare for a matriculation examination which was outside the scope of their school curriculum.

In the school's many activities and interests Miss Macdiarmid took a leading part: for several years she represented us on the Y.W.C.A.'s committee for planning Vocational Guidance Conferences; she was the girls' Staff Adviser on our first Students' Council; she organized with efficiency and success several of our wartime undertakings. West Hill will remember her with appreciation, affection and esteem.

WINNER—ALLAN HALL MEMORIAL TROPHY

West Hill has been pleased to honour its outstanding athlete by awarding to him the Allan Hall Memorial Trophy. The recipient was chosen by means of votes, cast by the players of all the Senior School teams. This award to perpetuate the memory of the late Allan Hall, was given to Pete Finlay who has achieved great success in the realm of sport.

Pete Finlay is an all round athlete. He has participated in Basketball, Tennis, Water Polo, Football, and in class sports, since his arrival at West Hill. He holds the mile record for the inter-school track meet. Many of the teams on which he played won City Championships.

The best wishes of the Staff and pupils of West Hill go with Pete. It is hoped that he will have continued success in whatever field he enters. May he always look back with pride on his achievements, and may he never forget his old School!

 "Erasers are the nicest things,
 Of that there is no doubt,
 We write wrong words, a few quick swipes—
 And big mistakes fade out."

 If schoolwork she can escape,
 And some new inventions make."
 Joan's auburn hair is the envy of the class. Monday morning is taken up, telling Eily, Wee, and Maggie all about the weekend! Most of these precious weekends are spent in the Northland, skiing. Is it any wonder that Joan is stiff on Monday?

 Proposed Ambition: To graduate.
 Probable Destiny: Time alone will tell!

MARILYN MERLIN "Mert"

 Who tells me jokes I've heard before,
 But he will find me glum and grim,
 Who tells me jokes I've told to him."

DORIS NIVEN
 "My Geometry I study, try and test,
 Then I shrink back shuddering from the quest."

 Pet Peeve: Walking up and down three flights of stairs.
 Pet Passion: Dinah Shore's, "Smoke Gets In Your Eyes."
 Pet Patter: "What are we supposed to be doing?"
 Proposed Profession: Private Secretary.
 Probable Destiny: Secretary to a Private.

MEREDITH NIXON "Nicky"
 "I love thee for a heart that's kind,

JEAN PETERSEN "Pete", "Peter", "Curly"
 "There was a little girl who had a big curl,
 Right in the middle of her forehead."
 Any resemblance to this and "Pete" is purely coincidental.
 Pete's good nature just fits her stature and she can always be depended upon to console us in our misery. We were very sorry to hear that Pete had to leave us and return to the U.S.A.

 From time of early morning;
 With many a sigh and long-drawn yawn,
 My schoolwork I find boring."
 Eileen is among the very frequent absent members, and when she does appear, it's only to find half her books at home. Maybe she figures that "Absence makes the marks grow higher."

 Pet Patter: "Who's kidding who?"
 Ambition: To be in school more than one day a week.

 Appointed for my matriculation."
 Every recess Eileen can be found comparing news of the home front with the gang. She certainly gets a lot of singing done in her music lesson along with many other old jobs. As there are two other Eileens in the class she very often gets out of answering questions.

 Probable Destiny: Finding the missing link!
 Activities: Girls' Choir; Red Cross; Class sports.

The Wright's the aeroplane,
But whoever made the history book,
Sure won his name in fame."
Norma's falling point is history. She just can't remember what our history book says. However, she makes up for this in the Art room. How about telling us how you keep your hair so curly, Norma!!

Pet Passion: History (Oh, yeah!)
Pet Patter: "Why shore."
Proposed Profession: Aviatrix.
Probable Destiny: Member of the Groundhog's Club.

BARBARA SMART "Perry"

"I wish that I might someday see
Some French that wasn't Greek to me!"

"Somebody said that it couldn't be done,
But she with a chuckle replied,
That maybe it couldn't, but she would be one
Who wouldn't say so till she'd tried."
The geometry deductions that Eunice solves are really amazing. However, we would be very grateful to her if she could solve the problem of keeping her milk bottles under her chair, instead of rolling down the aisle!

Pet Passion: Collecting milk bottles under the desk!
Pet Patter: "Ken, lend me a nickel for a bottle of milk!"
Proposed Profession: Registered Nurse.
Probable Destiny: Milkman for Elmhurst Dairy.

I love to hear you quote it,
I like the thought, I like the swing,
I like it all! (I wrote it)."
"Tommy" is another of Room 30's members who thinks it is her patriotic duty to keep a certain member of the Navy happy, and, from what we hear, she seems to be doing alright too. Besides these patriotic duties she finds time to keep her corner chucking at her jokes (?).

Pet Patter: "I love Dat Man!"
Proposed Profession: Chemist.
Probable Destiny: Inventing a gas to collect men.

LOIS WILSON "Lo"

"Should my life all labour be?
There's too much school in it for me!"
Lois should have been called Giggling Gertie, as she does nothing but laugh from morning till night. It could be that she was given the front seat because she is the smallest member of the class, but we're sure it's for an entirely different reason.
Pet Peeve: Being told she's short.
Pet Passion: Tensing Ruth.
Pet Patter: "I guess you told her!"

The halls of old West Hill,

GRADE XII BIOGRAPHIES CLASS OF '45

"Chuck" Hewson, our poor, patient, hopeful class teacher,
 Giving us pep talks is still his main feature;
 He won't allow pin-ups to trim up our walls,
 But takes them himself to admire in the halls!
 And here are our classmates, so full of fun,
 Space only gives us two lines for each one.
 They're arranged alphabetically, oh, what a job!
 So here are the funsters, starting with Bob.
 Bob Baird is a skier, the rumours go forth,
 For what other reason does Bob go up North?
 A serious pupil and a cute-looking boy,
 Gordie Bartlett, (Sergeant Meryll), whose smile is so coy!
 If it's money you must pay or tickets you lack,
 No doubt you'll be dealing with Eddie Black.
 Relating to theories, Einstein and such,
 Jack Bowie always seems to know twice as much!
 A characteristic laugh is just one of his features,
 He's "Homer" to the boys, but Brady to the teachers.
 Gordie Buck stars in school sports, Keats and Shelley,
 But his main school interest is in little Miss K——!
 Norm "Butch" Butcher, with those yells so lusty,
 He's noted for his jokes, so corny and musty!
 Bill's a Montreal High boy of Westernaires fame,
 Just listen to that trumpet, folks, Craig is the name.
 An ardent comic-book fan, Dave Dickie.
 According to him, his Betty's some chickie!
 "Willie" Falconer, grade twelve's brains,
 Makes 101 and still complains!
 Pete "Flash" Finlay, football's "25",
 Plays baseball and basketball, but doesn't jive!
 Conrad Goldman, our baritone sax,
 Annoys Mr. Shupe with his constant wisecracks.
 A quiet, well-liked fellow is David Hill,
 Conquers studies and music almost at will.
 Bill "Dimples" Honeyman has such nice curly hair,
 In the wintertime, St. Sauveur is his lair.
 His name's Fred Lazier and he's got a twin sister,
 He claims he's got a girl, but he's never kissed her!
 A downright good fellow, of saxophone fame,
 Kel Mann finds French just one big pain!
 Edgar Mott tells Pop Shupe that he labors and toils,
 But he stars on school teams and the Montreal Royals.
 Cal Patterson's the quiet boy of the class,
 One of the few who still hopes to pass!
 Stu "Pixie" Pollock, the girls think he's shy,
 He's got long pointed ears and he wears a loud tie.
 "Shorty" Bob Robertson, Chicago's son,
 Six foot two of sports and fun!
 A smaller edition, his brother Hugh,
 A scholar, a sport and a jitterbug, too!
 Andy Ross, whose late excuse is best,
 "I couldn't get a street car in Montreal West!"
 Near the back, Pop Shupe's problem boy,
 With a new fuzzy brush-cut, Dick St. Croix!
 "Willie" Titt is a studious boy,

His physics lab book Ches marks with joy!
 Cliff Warren's our class wit, his tricks take the prize,
 He'll try anything from poetry to dissecting flies!
 "Jeepo" Watson, our basketball champ,
 Extra algebra from Pop gives him writer's cramp!
 Our student council member, "Oscar" Bob Wild,
 It's amazing, the brains in this talented child!
 This boy's a good athlete, and his marks come high,
 Eddy Wright from 3.20 can be found at the Y.
 Lois "LO" Boville, from Montreal West,
 Her chattering with Wiggy never gives us a rest.
 Betty "Bet" Brewer, our football fan,
 She can cheer as no one else can!
 Phylis "Zoot" Kelly, another Latinite,
 With algebra and —— she'll do all right!
 "Lanky" Kay Langton, a basketball star,
 Beats all the girls in physics by far.
 Buddy's twin, Aimée, does wonders in maths,
 With Buddy's help she's sure to pass!
 Iris McFarlane finds Latin a treat,
 This green-eyed girl with hair so neat.
 A cute little number is Adèle Péron,
 Tops in French is our "Filet Mignon."
 Catherine Seath never lets out a holler,
 She's quiet but still she's an excellent scholar.
 Marjorie Smith, another quiet little lass,
 "She'll get good marks" quotes Mr. Brash.
 Here's to our Wiggy, with chatter vivacious,
 She's clever and witty and oh, how curvaceous!
 A note for our absentees, who left too soon,
 Those lucky ones who won't cram in June!
 Ken Barclay, is football champ quarter by far,
 The army has got him, so long to our star.
 Remember Bob Simpson? Of course we all do,
 Our best glider thrower, now a soldier, too.
 Joan l'Estrange stayed on till December,
 And now at a business college she's a member.
 So ends our happy twelfth year class.
 We've shown you every lad and lass:
 The Plumbers and the Engineers,
 Who will make good in future years;
 The Science and the Latin girls,
 Our daily life and social whirls;
 The fun and frolic we have had,
 Now, teachers, were we really bad?
 We had our moments, sure enough,
 And keeping us quiet must have been tough,
 But maybe some day you'll be proud
 Of that rowdy, boisterous, lazy crowd!
 Grade XII '45 will stick together,
 Through war and peace, 'mid stormy weather,
 And then if we do meet again,
 We'll say, "Hi, bub, I knew you when!"
 Enough of our prattle, puns and such,
 Your class biographers, "Wiggy" and "Butch"!

 NORMAN BUTCHER.

GIRLS' HI-Y CLUB

The West Hill Girls' Hi-Y Club had an interesting programme this year, and many speakers, who spoke on varied subjects. We enjoyed a series of talks including, Boy and Girl Relationship, Our Appearance, Juvenile Delinquency and Racial Culture.

On the lighter side, we held a "Coke-Hop" again this year, which proved to be a great success, and enjoyed ourselves thoroughly at three meetings with the Boys' Clubs. We also gave a Christmas party for the children at the Ladies' Benevolent Society, which was as much fun for us as for the children.

Our season was high-lighted by a trip to Chinatown, where we all wrestled with chopsticks, etc., and a tea, given for the girls' teaching staff and Mr. Heslam.

We wish to give our hearty thanks to our advisors for their encouragement, advice and help to us during the season.

WEST HILL GREY HI-Y CLUB

This is a new Chapter of the Hi-Y Club this year. The name of Grey comes from the school colour, the original club is now called Maroon. The purpose in opening this new Chapter is to give more boys in West Hill the advantages offered by the Hi-Y, the most prominent Club in the school. The President of our new club was elected from the old club, while the remaining officers were elected from the new members. Our club was composed of twenty-four members, all of whom were enthusiastic about Hi-Y.

Our meetings were interesting and educational, composed mainly of three topics, boy and girl relationships, racial conditions in Canada, and vocational guidance. All these topics were of four or five sub-topics and were enjoyed by all. The club also ran or attended four joint meetings with the Maroons and the girls clubs. One joint meeting was held with all the Hi-Y's and other "Y" young people groups in connection with a speaker from India, who had been interned by the Japs for two years. These were Clubs from Montreal West, West Hill and the N.D.G. Y.M.C.A.

The Hi-Y dances this year were run through the joint council, formed because of the new club. This council is composed of the President, Vice-Presidents, and one member from each Club. Our Club sent three members to the Annual Hi-Y Conference at Kingston, and they returned with a glowing account of their experience at it. The

club owes a vote of thanks to Messrs. Heslam, Dance and Payzant for their excellent advice and encouragement to us during the year.

GIRLS' MENORAH CLUB

This year, 1945, marks the eighth successful year of West Hill High School Girls' Menorah Club. The object of the Club has been to unite the Jewish students of West Hill in a common interest; to create and sustain a higher standard of thought among Jewish people; and to help further relationship between Jew and Gentile.

Again this year the Club sent parcels and corresponded with two former members of West Hill now overseas on active service.

In addition to regular meetings, we met jointly with other groups, and interesting guest speakers were present each time.

Our annual Sadie Hawkins dance was held on November 25th and was a great success. The proceeds were given to various charities.

We closed the year with a Mother and Daughter Luncheon. Ninth year pupils, future members of the Club, were present.

The officers elected to the 1944-45 Executive were as follows:

Honourary President - Joan Abbey.
President - - - - - Connie Rothman.
Vice-President - - - - Dorice Kushner.
Secretary - - - - - Freda Epstein.
Treasurer - - - - - Phyllis Gammeroff.

LE CERCLE FRANCAIS

Le cercle a été formé l'année dernière pour nous aider à parler français plus couramment.

A nos réunions nous avons appris quelques chansons et de nouveaux jeux. Nous avons eu deux débats, l'un ici à West Hill et l'autre à l'Académie Strathcona. Quelques-unes de nos membres ont présenté plusieurs scènes de la pièce de Labiche, "Le voyage de M. Perrichon." Elles ont très bien joué.

Toutes les jeunes filles jouissent du cercle français et maintenant peuvent parler français avec moins de difficulté.

■ Nous voulons remercier Mesdemoiselles McLelland et Stewart de leur aide.

TUCK SHOP

For a long time the school has wanted a tuck shop where the students could buy something to eat during recess. Not until last year was anything done by the Students' Council to meet this need.

The shop has been in operation since the end of November and has been serving both sides of the school with good results. The students have cooperated well and have helped to make it a success.

BOYS' MENORAH CLUB

This season of 1944-1945 concludes the fifteenth year of the Boys' Menorah Club of West Hill. The three main purposes of the club which were expressed in the constitution are briefly:

1. To unite Jewish students of West Hill in a common interest.
2. To create and sustain a high standard of thought among Jewish students
3. To help further relationships between Jew and Gentile.

This past year the Club has been inactive due to the lack of talent in keeping boys together. We did conduct a book drive for the I.O.D.E. which was quite successful.

It is to be hoped that the coming year of Victory and Peace will see the renewal of many activities, and among them a revised and stronger West Hill High Menorah Club.

WAR SAVINGS STAMPS REPORT FOR 1944-45

Last year the sale of War Savings Stamps at West Hill amounted to six thousand dollars, a record for the four years. The total from September until April 17th of this year is \$4,284.50, and Miss Parker hopes to break last year's record. That leaves a large sum to be purchased in two and a half months.

The War Savings Stamps contest for October and November was won by X-B, R. 23, with a total of \$813.25. As a reward the class was taken on a personally conducted tour through the Canadian Vickers Aircraft plant at Cartierville.

In December the winning class was VIII A, R. 2, with \$608.50 in one month. Before the end of March this class of girls had passed the thousand dollar mark. For this they were dismissed at two o'clock on a Friday afternoon, after spending the first period in the Library.

The silver cup, the prize in the February-March contest, was won by IX C, Room 18, with a total of \$89.25.

Now several inter-class competitions have been started. In some cases the losers will treat the winners. Others are competing for the best black-board poster dealing with War Savings Stamps. An effort is being made to interest those at school who can make large purchases. It is expected that these three methods will enable us to reach our objective and set a new record to be beaten next year unless the war ends before then.

PUBLIC SPEAKING

This year, West Hill's Annual Public Speaking Contest was run on a slightly different plan. To begin with, the preliminaries were held during the last period in the afternoon on April 11th, and 19th, instead of after school, as in former years. Secondly, the finals were held before the newly-organized West Hill Home and School Association, on the evening of April 25th. This is also a change, as formerly the finals were held during school hours at an assembly of the school. It is very gratifying to have had this contest recognized as being important enough to warrant such attention.

The number of entrants in the preliminaries this year was smaller than usual, especially among the girls. However, the high standard of quality of the speeches made the selection of the finalists by the judges extremely difficult.

The final contest was won by Leo Kolber, who spoke on "The San Francisco Conference". Book prizes were also presented to Dan. Morris, who came second; Joan Humphries, who came third; and Stewart Pollock, who came fourth.

Great thanks are due to Mr. Brash and his group of judges for the great amount of work which they put into the management and judging of this Public Speaking Contest.

HI-Y COKE HOP

On Thursday, February 15th, the Boys' Hi-Y Clubs sponsored a Coke Hop held in the school gymnasium. Several of the famous name bands were present in the form of records, and the voice of Frankie echoed through the school. Bill MacLellan acted as Master of Ceremonies until the arrival of Bruce LeDain. An enjoyable time was had by all, either in the form of dancing or drinking cokes served in the boys' basement. A little over thirty dollars was realized from the undertaking which

went to help defray expenses of Hi-Y boys attending the National Conference at Kingston, Ontario during the Easter Holidays.

DEBATING

This year the Inter-School Debating League was enlarged to include two more schools, Westmount High and Verdun High. The original four schools—Montreal West, L.C.C., Strathcona and West Hill—were, of course, still competing.

During the season each school had three debates. This means that for each debate each school had to provide two teams, each team consisting of a boy and a girl if possible. One team had to take the negative side of the debate at their opponents' school, while the other took the affirmative side at their own school. Thus each school actually had six debates.

West Hill's debating team won four and lost two of their debates. This placed them in a tie for first place with Westmount High at the end of the regular season. A single debate was held between these two schools at L.C.C. on April 20th to decide the winner of the Milton Hersey trophy. This final debate was won by Marjorie Overton and Leo Kolber, who represented West Hill.

Members of West Hill's debating team this year were Marjorie Overton, Joan Humphries, Alice Weigensberg, Bob Wild, Leo Kolber, Dan Morris, Bruce McCullough and Hugh Hamilton.

We wish to thank Mr. Brash whose careful guidance during the season has made our debating team a success.

CHRISTMAS VARIETY SHOW

This year once again the students presented a Christmas Show. A committee of nine pupils from the Eleventh and Twelfth grades organized a programme, consisting of talent found within the school, and staged a successful revue, thanks to the hard efforts of all participating.

The capable Master of Ceremonies, Bruce LeDain, led the show, which opened with a West Hill Belles' chorus line. From there any resemblance to good fun and laughter was purely on purpose, with girls presenting a 1950 fashion show, an ensemble number, and a Trolley Song act.

The Jones Philharmonic (Jazz) Orchestra and three solo vocalists gave more musical touches, and the M.C.'s quiz show sponsored by "Whoopsy! Crunchies" brought out astounding knowledge from our competitors.

The finale was a colourful doll act with merry Santa Sadler, distributing our gifts. Much merriment was also contributed by a melodrama starring our M.C.

Proceeds from this show were contributed to Christmas funds. We hope you don't miss the fun of presenting a better show next year.

THE STUDENT'S COUNCIL

In the Autumn of 1944, the Student Council entered into its third year with enthusiasm, high, as colourful posters and nervous candidates brought on the October elections. These candidates for Executive offices addressed the schools, and following slate of officers resulted:

President - - - - - ROSS MCKAY
 Vice-President - - - - - PAT MOONEY
 Secretary - - - - - EILEEN PAUL
 Treasurer - - - - - ROBERT WILD

Our first meeting was full of both keen members and keen suggestions. Various committees to look after assemblies, notice boards, and other odd jobs were appointed. We strode into the coming year full of ambition and wonderful projects. What we actually did accomplish is now to be seen.

At the beginning of the year, a suggested Scholarship Fund, in memory of old West Hill pupils fallen in the ranks of those fighting for freedom, was acclaimed by all Council members to be an excellent project. Twenty-five thousand dollars was to be raised, and the interest used for scholarships. The majority of this amount was to be obtained by donations from a proposed drive, and the Council undertook to raise One thousand dollars towards it as a start. Accordingly, all activities were to be directed with this goal in view, one which is truly worth while, and which should receive the support of everyone.

The largest project of the year was the Friday Night Club. This is a Youth Center, providing dancing, games, entertainments and such recreational activities at the school. After a remarkably successful Opening Night, run by Council members, with over seven hundred people in attendance, the Organization passed to a small group of boys

who carried the herculean task of great skill. This was and is an excellent project, but the measure of successes enjoyed this year cannot be compared to that which can be obtained next year, with a complete school's co-operation for its foundation.

A tuck-shop, operating at recess time, was our next big job. This was found to be welcomed by all students, and through minor financial complications resulted, (there we thank Miss Howe for her help in repairing these), small profits were forthcoming. The shop was directed by Council members, but our thanks also go out to those whose industry made it a success.

Many other minor undertakings were carried out also. A Christmas Show supplied the money for our Christmas Cheer Fund, a Salvage Drive showed small profits for the Scholarship Fund, a news sheet for our old West Hill pupils in the Services was written, and a penny drive supplied money to the Red Cross. These, with other regular duties, completed our work.

Friends, West Hillians, Countrymen! Lend me your ears! Let us candidly admit that the Students' Council has done not nearly as well as it might have. The members form a cabinet, elected by and responsible to you. But you forget that you are primarily responsible for them. You must elect them with foresight, test their ability, leadership and responsibility. Discretion must be your watchword. Next year is your next chance, your next is another great chance, make this great chance into a great council. Fail, and you lose one of the most potent and vital elements in school life. Rally! Be on your guard! Choose wisely and support wholly! And you will realize a strong students' council, ready and able to help to build a strong West Hill.

ROBERT WILD, XII.

YEOMEN OF THE GUARD

On the evenings of April 11th, 12th and 13th, the Music Department of West Hill High School presented "The Yeomen of the Guard", a light opera by Gilbert and Sullivan.

The "Yeomen of the Guard" is recognized as the most serious and musical of the Gilbert and Sullivan series, making great demands on the acting and singing abilities of young performers. Nevertheless, the production left little to be desired being reminiscent of past successes.

Morley Calvert excelled as Jack Point, playing that role in the true Gilbert and Sullivan tradition. The part of Wilfred was played superbly by Ronald Weiner who was notable for his diction and deportment. Gerald Hanson executed the taxing vocal role of Col. Fairfax in a convincing manner, showing great promise.

Marjorie Overton showed great ability as Phoebe while Elaine Allen was very proficient as Elsie. Joan Humphreys was an excellent Dame Carruthers. The roles of Sgt. Meryll and Sir Richard were ably played by Gordon Bartlett and Leslie Hill. Emela Pike and Ken Gatehouse were well cast as Kate and Leonard, while Don Gardham and Morley Pinkney

made the most of their roles of leading Yeomen. The two large choruses of Yeomen and Citizens sang precisely with good intonation. The West Hill orchestra, augmented by professionals, played acceptably. The thanks of the singers are extended to all pupils and teachers associated with the presentation of the operetta, especially to Miss Dumbell and Mr. Jones for their explicit direction, and foresight in casting and their months of effort.

BILL FALCONER, XII.

"ARSENIC AND OLD LACE"

Sometime in January, 1945 a group of enthusiastic pupils met with Filmore Sadler to try out in the first readings of Joseph Kesselring's "ARSENIC AND OLD LACE". A little over a month later a well-groomed version of the comedy brought an audience of 1,900 to West Hill's auditorium. The play concerns the antics of two old aunts, born and bred in Brooklyn, who out of the goodness of their hearts poisoned twelve lonely old men. It all happened after a man dropped dead—from a heart attack—in their front parlor and Aunt Abby recalls, explaining to Mortimer; he died "looking so peaceful—remember, Martha—we made up our minds then and there that if we could help other lonely old men to that same peace—we would"—and they did—twelve of them!

Perhaps the following review from the Montreal "Star" will do the job of describing the players better than I.

"June Wilson and Joan Humphreys, as the two dear, unruffled old ladies, played delightfully, with commendable team-work and the utmost composure; Bruce Le Dain gave a perfect picture of a harassed and agitated young Mortimer, William Langroth was a properly horrifying Jonathan, while the characterization of Daniel Morris as his companion, Dr. Einstein, was worthy of a seasoned professional.

"Leo Kolber made an amusing Teddy Brewster, Jim Hunter made the most of his brief but telling role of Lieut. Rooney, and Joan Henry, as Elaine, Mortimer's fiancée, was charming, frightened, and spirited, all at the right moments. The lesser roles were all well taken care of" . . . by Kenneth Haslam, James Ambrose, Spencer Skelton, Paul Horton, Donald Beauprie and Norman Galey.

RED CROSS REPORT, 1944-45

This year there were fifteen girls' classes and only one boys' class who joined the Junior Red Cross. The girls' classes contributed towards a beautiful summer outfit for a child in Silverwood War Nursery, England, costing twenty dollars and eighteen cents. Most of the clothes were made by hand and it was an outfit that anybody would appreciate very much.

In all, fifty-five dollars and ninety-three cents was raised: sixteen dollars was sent to headquarters for administration expenses and thirteen dollars and twenty-five cents for the Norwegian Red Cross, the Prisoners' of War Fund, and the children in War Nurseries. The Students' Council also donated ten dollars for the Red Cross War Fund.

The annual Junior Red Cross Conference was again held in Westmount Junior High School on April 21, and West Hill sent eight delegates. Three West Hill girls were in charge of the registration, and Alice Bremner of X-G spoke about the urgent need for magazines for the Magazine Depot in the Sun Life Building.

We received a letter from the father of the girls, who were given the winter outfit sent in June, 1944. The girls are in Silverwood Nursery, and their father expressed his deep appreciation for the beautiful outfit made by the West Hill girls.

West Hill has also been collecting used stamps and Room 2 brought in the greatest amount.

At the end of April, about eight hundred articles of knitting and sewing have been brought in, and we hope that by the end of June we will have made over one thousand.

SHIRLEY TAIT, X-A.

THE FOREIGN AFFAIRS CLUB

The Foreign Affairs Club began its activities late this year, enlisting new members, and revising the constitution. The discussions were held in Mr. Parker's room or the library, usually once a week.

During the first week of February an open meeting was held during school hours for the student assembly. Mr. Arne Shouen, a Norwegian Underground Hero, the club's guest speaker, enthralled the West Hillians with a graphic account of the experiences of several of his countrymen who belonged to the underground forces.

Despite the small membership (compared to other years) the meetings were not only interesting, but very lively with little quarrel given. Several club members spoke on very suitable topics at various gatherings. Particular attention was given to the keeping of World Peace, deviating from the war strategy discussions of other years.

Officers of the Foreign Affairs Club for the 1944-5 season were:

MR. PARKER Adviser.
STUART SHAW President.
CURTIS KARLSON Secretary.

GRADUATION 1944

The graduation exercises of the class of 1944 were held on October 20th, 1944. There were two hundred and twenty-nine graduates of whom twenty-four were from twelfth year. There were a few in the uniform of the King. The chairman was the Very Reverend Malcolm A. Campbell. The guest speaker of the exercises was Dean Sinclair Laird, Dean of the School for Teachers. He said that the graduates' success was due, not to their own personal ability, but to that of their forefathers and mothers.

The diplomas, medals and scholarships were presented by Mr. Heslam and members of the staff. Mr. Heslam read a telegram from one of the graduates, Robert Brown, who was at Royal Roads Naval College. The first girl was Betty Ulman and the first boy was Jerrold Finnie.

Jerrold Finnie gave the Class Paper in a capable manner and the Valedictory was given equally well by Betty Ulman.

Miss Dumbell directed the girls ensemble, who sang two selections. The senior band was under the leadership of Mr. Harrison Jones, and played several numbers.

Following the Graduation exercises, a dance was held in the gymnasium. F. W. MACLELLAN, XI-B.

ESSAY CONTEST

The Annual Essay Contest was held this year on Monday afternoon, February 12th, in the Library. A large number of contestants from tenth and eleventh years participated. The contestants were allowed two hours to write the essay on any one of a list of fifteen topics.

As in former years, the eight essays, judged to be the best by a committee of teachers in the school, were sent to a McGill professor for the final judging. Barbara Smardon was awarded first place, and as a result won the 1941 Grads' Trophy. Other prizes were won by John Walsh, who came second, and June Wilson, in third place.

Mr. Brash is to be thanked for the excellent manner in which this contest was conducted, and great thanks are due to him for his untiring efforts to this end.

COMMUNITY CLUB

Under the able management of John Snyder, assisted by George MacClean, Tom Shustack and Morley Calvert, the new Community Club was an immediate success. The suggestion was first passed by the Students' Council and was later voted on by the Student Assembly. The decision was unanimous and the Club was started.

Record crowds of pupils and outsiders packed the gym for the main attraction at the Friday night center. Dancing, local orchestras and juke boxes, ping-pong, badminton, and basketball were also available for the boys and girls.

Parents of the pupils acted as chaperons and we would like to take this opportunity to thank them heartily for their interest and co-operation.

No. 72 SQUADRON A.C.C.

Last summer, about sixty officers and cadets of No. 72 Squadron had the privilege of attending the summer camp at Rockliffe Air Station. They shared the camp for a ten day period with about 75 officers and cadets from 240 Squadron. The camp Commanding Officer was Flt/Lt. MacRae, No. 240 Squadron. Flt/Lt. Searle, No. 72 Squadron acted as Administration Officer. The cadet Liaison Officer for the camp was F/O Oltman, R.C.A.F.; and Sgt. Gibb, R.C.A.F., was responsible for discipline.

A feature of training camp this year was the opportunity of having familiarization flights in service aircraft. The R.C.A.F. also treated the boys to two sightseeing trips into Ottawa. The officers and cadets thoroughly enjoyed their stay in camp.

Soon after the opening of school in September, the N.C.O. Course got under way with about sixty cadets taking training. In late November, the course was discontinued and promotions and appointments were made. By December recruit training was well started. As usual, this year cadet training is compulsory for all students in tenth, eleventh and twelfth years if these students are not affiliated with other military organizations.

This year, the Squadron has been fortunate in having F/O H. Jones take charge of both Brass and Bugle Bands. Numerous practices were held throughout the year, with the result that there are two excellent bands to lead the parades.

The complement of the squadron for the 1944-45 training year was ten officers, thirty-two N.C.O.'s, and three hundred and forty-three cadets. The officers now hold R.C.A.F. appointments and are fully qualified to carry out their respective duties, which include instruction in administration, physical training, drill, navigation, meteorology, air-manship, signalling, map-reading, and aircraft recognition.

During last summer, Sgt. Gregory Wood was killed in a road accident. Greg. was a fine cadet and he will long be remembered by those who knew him and trained with him.

The formation of the Air Cadet League of Canada was not a wartime measure, but one with an eye to the future of Canadian aviation. Training is advancing steadily and some squadrons are now equipped with gliders. Recently the Air Cadet League made arrangements with local flying clubs to help instruct senior cadets desiring flight training in their aircraft when peace returns.

W.O. I, JOHN SNYDER.

It is a well-known fact that West Hill has never been outstanding in skiing, but this year, mostly due to Mr. Parker's hard work, West Hill began to slowly stumble to her feet in this field of sport. At the beginning of this year, Mr. Parker began to work on the idea of a West Hill Ski Club. The idea was a good one and the club got off to a fair start, but there are many improvements to be made. These will be worked on so that in future years it is possible that West Hill will have a strong ski club team.

West Hill did not have a team of a few chosen skiers, but allowed everyone to have a chance to race. The results were not as good as we hoped they would be. We know that there are more good skiers in the school than those who turned out.

Owing to the short season this year, the Pro-Testant School Ski Union was unable to finish its schedule of races. This was unfortunate, but in the races which were held we were able to notice some promising skiers in the school. In the seniors, John Chauvin and Bud White showed up. Alec Olsen, John Cook and Bryce Eckstein placed in the inter-mediate, and in the juniors there was Gordon Carpenter and Ted O'Beay. Other skiers who also competed and deserve mentioning are Bob Phillips, Nat Gorby, Al Gray, Dave Pengelly, Walter Mills, Art Boyle, Alec Stanton and Al Rolland.

Peter Van Waagner, XI-F, Sports at West Hill and Herbert Symonds this season. Mr. Jardine took a swimming class every Monday at the Community Hall at which many boys learned to swim.

The Junior Hockey Team made great progress during the winter season, but the early spring broke up many games.

The Eighth Grade Basketball Team played some hard-fought games. They challenged the Teachers to a game which the Teachers won.

Baseball teams were made up in classes, and it is hoped that there will be an inter-class baseball league.

K. Roberts, Grade VIII, Boys' Athletic Association.

This has been a very successful year for West Hill in sport, all three Senior "A" Teams having won their respective City championships.

The extensive task of financing and directing these school sports was efficiently accomplished by the Boys' Athletic Association, consisting of Mr. Wilson, President, Mr. Hewson, Secretary-Treasurer, and Mr. Searle, Athletic Director.

Receipts from football and hockey games were added to the funds obtained from membership fees and from the Schoolboard. With these funds all teams were financed and equipment furnished.

We owe a great deal of thanks to the Association for their generosity in giving of their time and interest to provide the well-organized sports that we have here at West Hill. Eugene Watson, XII Grade

SKIING

West Hill again entered two teams in the Interscholastic Water Polo League, and as usual the teams received little or no support from the school in general.

Although neither team won a championship, the boys came through with a better season than was expected. Being composed mostly of new boys, the team fought its way through a tough season losing most games, but gaining experience and skill which we hope will profit next year. The Senior "A" team tied one game, and lost the rest by very close scores.

A great asset to Senior "A" was Peter Van Wagner, who was a great help in the forward line. Herby Kerr was a sensation in the goals, and saved many a goal. Another outstanding figure was Cliff Warren whose powerful shot accounted for most of our team's points.

The Senior "B" team did not win a game throughout the season, all the players being new at the game. Hugh Robertson and Bruce Webb were the outstanding players of the "B" team.

The teams were coached again by Mr. Ebers and Mr. Searle, whose efforts were unstinted.

The teams were: Senior "A": Eric Van Wagner (C), Earl Wheeler (W), Lorne Pelton (W), Cliff Ted Kendall (G), Herby Kerr (goal).

Senior "B": Hugh Robertson (W), Bruce Webb (C), Fred Surtic (W), Sid Griffin (W), Eric Doehler (goal), Lawrence Sinclair (G), P. Smith (G), Barnfield (W).

INTER-SCHOOL SWIM MEET

This year, as in previous years, West Hill entered in the Annual Inter-School Swimming Meet, which was held on March 21st at the Montreal High pool. The meet was the most successful West Hill has ever entered, in spite of the length of the programme. Out of a total entry of eight high schools, West Hill placed second, next to Montreal High. This was very satisfactory, considering the lack of practice facilities at West Hill. There were few contestants, considering the enrolment of our school; however, those who did enter made a creditable showing. Next year we hope there will be a greater interest in swimming, and that West Hill will be able to take first place.

Also this year West Hill held an Inter-Class Swimming and Diving Meet at the N.D.C., Y.M.C.A., on March 14th. This is the second year that such a programme has been undertaken, and although the meets have been very successful, there is room for a decided increase in the number of participants. The judging and timing were done by West Hill teachers. This meet has become established as an Annual Swimming Competition.

SENIOR "A" FOOTBALL

West Hill's Senior "A" Squad again brought honour to West Hill, by winning the City Championship, and the Inter-City Championship over Glebe Collegiate of Ottawa.

During the regular season the Red and Grey won six games and lost but one. In their first two games, they walked through Montreal High 34-0, and Westmount 44-0, and slowing down slightly, defeated Loyola 11-1. Montreal High was taken in hand again, as West Hill piled up a 26-1 score, followed closely by 39-5 over Westmount. The loss of Ken Barclay through a broken collar bone, caused quite a setback as Catholic High downed a hard fighting squad 6-0. McGee was defeated 22-10, at L.C.C. to finish off a very successful season.

The City finals were next, being played against Loyola, at the Loyola Campus. The game was very closely contested, but West Hill emerged victorious once more. The score was 1-0, the point being scored from a kick by Macquisten, which pinned Loyola behind their line for a rouge.

During the entire season, West Hill scored 197 points, and had only 42 scored against them.

Members of the West Hill Squad appearing in the All Star Teams were, Ken Barclay, Quarterback; Bill Smith, Half; Don Macquisten, Outside; Pete Finlay, Half; Don McLaughlin, Flying Wing; Harold Hay, Outside; Don Bentley, Snaf; Bob Robertson, Middle; Mickey Ball, Inside; and Roy Chesley as All Star Coach.

In the Inter-City games against Ottawa's Glebe Collegiate, Glebe took the first game 19-13, and West Hill the second game 7-0. The games were played on a total point series, West Hill winning 20-19. Both games were hard fought, each squad having its finer points, but West Hill came through from behind and pushed Glebe out of the picture by a one point margin. Thus West Hill won the Inter-City Title.

The players wish to extend their thanks to Coach Roy Chesley for his patient and excellent coaching, enabling them to win these two Championships, and to complete a successful season once more.

SENIOR "A" HOCKEY

With almost all of last year's team, this year West Hill went forward to capture the Hart Memorial Trophy, which is emblematic of the Senior "A" High School Hockey League Championship.

The team opened the season against Loyola at the Loyola arena and turned aside the collegians 4-1 in a fast skating game. The performance of the Red and Grey squad caused sports writers to call the team the most powerful team ever seen in school hockey. In the next four games West Hill proved this statement when they defeated Verdun, Strathcona, Westmount and Montreal High, by scores of 6-0, 9-0, 7-0, 5-0, respectively.

The next game was played against Catholic High School and a crowd of 3000 people saw West Hill accentuate speed and a hard hitting defence to win out by 3-1.

West Hill then played Verdun and won by a score of 6-0 and then beat Strathcona and Westmount by scores of 10-1 and 5-2. The final league game of the year was played against Montreal High, and West Hill won 18-2.

On the 23rd of March West Hill and Catholic High played their first play-off game which West Hill won 4-2. The goals were scored equally by Mac-

quisten and Mott. On the 27th the final game of the series was played and West Hill gained a three-all tie with C.H.S. on two goals by Wiseman and one by Mott and sensational goal tending by Howard Harvey who turned in the best performance seen in school hockey in years.

The boys would like to thank Mr. Chesley for his help in bringing the cup back once more and to Messrs Pitcairn and Ebers who took over the team during Mr. Chesley's absence.

Scoring list as follows:

	G.	A.	Pts.
Wiseman	20	16	36
Hay	15	18	33
Cutts	10	12	22
Macquisten	9	12	21

SENIOR "A" BASKETBALL

This year for the second consecutive year West Hill's Senior "A" basketball team captured the City Championship going through the season with but one loss in league and play-off games. The West Hill boys displayed a superior brand of basketball to win most games by decisive scores.

With the addition of Baron Byng, Westmount and Stratheona to the squads of West Hill and Montreal High, a five-team league was formed. West Hill playing each other team twice, was victorious in all but one game, the loss occurred on the Montreal High floor in the last league game of the season.

Following the winning of the Protestant title, a home and home total point series was arranged with the Catholic champions, Querbes Academy, to determine the city champions. West Hill won the first contest on the Academy's home floor with a smart 34-20 victory. The second game of the series was played at West Hill and in an evenly con-

tested notch, the West Hill five eked out a 36-32 decision, thus winning its second consecutive city crown by the round score of 70-52.

West Hill's Senior "A" squad won its city title on a smooth quick-breaking offensive and a strong zone defence, developed by the ardent and capable coaching of Mr. Gregg to whom much of the credit for the team's success must be given.

A feature game of the year was the exhibition tilt with Champlain, N.Y. who lost to our squad by an overtime 25-23 score. A large crowd saw the home team win out with thrilling last-second basket from centre floor. Two other exhibition tilts saw West Hill down the intermediate teams of McGill University and University of Montreal. Exhibition games were also played against Catholic High, an "old boys" team. The ladies championship Olympic team, and Y.M.H.A., City Champions in Juvenile play.

SENIOR SOCCER

The 1944 Edition of the West Hill Senior Soccer Team under the brilliant guidance of Mr. R. H. Ewing again had a successful season. The team came second in the Western Division, losing only to Lachine, the City Champs. High scorers for us this year were Nat Gorby, who scored over fifteen goals to lead the high school league and Bob Wilson. The half line was also a tower of strength and they were greatly responsible for the team's excellent showing.

During the season we beat Montreal West by 7-1 and 2-0; L.C.C. by 9-2, 3-1; tied St. Laurent 0-0, and then beat them 3-0. Our only losses were to Lachine by 5-2 and 3-1 counts.

The following were the members of the team:—

R. Ascah, S. Egan, D. Sheen, R. Shaver, H. Kert (captain), L. Kolber, J. Edwards, B. Atkinson, N. Gorby, B. Wilson, R. French, B. McCulloch, P. Gow, D. Smith, H. Hamilton, E. Nenniger, S. Ward, A. Dormer, T. Maltby, K. Gottfried and B. Eckstein (manager).

HERB KERT, 11-B.

WEST HILL JUNIOR SOCCER

West Hill's Junior soccer team had a very successful season under the able guidance of Peter Hossack, ending up in second place behind Lachine's powerpacked squad. West Hill suffered only two losses, both to Lachine. There were four wins, one from Herbert Symonds, one from Montreal West, and two from Westmount Junior High Schools; and also the same number of ties, one with Herbert Symonds, one with Montreal West, and two with L.C.C. We members of the team wish to thank Mr. Potter and Mr. Munro for their able coaching throughout the season. BOB LEWIS, 9-J.

HERBERT SYMONDS (WEST HILL) HOCKEY TEAM

The Herbert Symonds Hockey Team made very good progress this year losing only one game, and that was to the powerful West Hill team who won the Protestant Junior Title. Herbert Symonds tied one game with the Westmount Junior Team. They won five victories by whipping Montreal West, Montreal High, Baron Byng, Lower Canada College, and Verdun High. Mr. McFarlane, the coach, thought he had a good team. Herbert Symonds ended second in the League.

SENIOR "B" FOOTBALL

The Senior "B" squad's season, under the expert coaching of Mr. Searle, started early in October, with West Hill defeating Verdun 16-8. The only defeat of the season was suffered when Strathcona Academy downed a hard fighting squad by a score of 8-0. After this setback, the team buckled down and crowded out Montreal West by a score of 17-16, and Montreal High 11-8. Next game was a hard fought battle against St. Lambert, when the two teams emerged with a tie score of 6-6. The next game, they walked through Mount Royal High with a score of 16-2.

In the total of the series, the good old Red and Grey suffered but one defeat, and one draw. Had it not been for the draw, West Hill would have had another crack at the Championship, Strathcona emerging with a one point lead in the total series. A total of 66 points were scored by West Hill, and a total of 48 points against. The winner of the Senior "B" was Strathcona, with 10 points credited to them; second, was West Hill with a total of 9 points. Much of the team's successes were credited to Don Ewart's quick thinking, Harold Buck's brilliant plunging and running, and Roy Scurrah's running. Other brilliant performances were turned in by Bob Gibson, Quarterback; Ken Roberts, Snap; and Hugh Robertson, Middle.

The members of the team wish to thank Mr.

Searle and Mr. Chesley for the time spent in coaching the team this season.

BILL MURRAY, X-F.

JUNIOR FOOTBALL

After a three-year retirement the West Hill Junior football team returned to the league. Although losing the championship by two points to the Mount Royal team, the Juniors came through with some hard-fought games.

At the opening of the season the Juniors travelled to the Town of Mount Royal, where they suffered their first defeat. The score was 10-7. Then they met the L.C.C. squad and beat them to the tune of 7-0. The 7-0 count over L.C.C. did not seem to satisfy the West Hill boys so they took it out of the boys from Westmount. They outpointed their opponents by a score of 41-0, this being a record of points scored by one team against another. Taking home another defeat was nothing to these Junior boys. When Strathcona came down to play West Hill, Strathcona lost by a score of 28-0. Again travelling, this time to Montreal West, the Juniors hung up another victory by beating the Montreal West boys 12-6. The Juniors then wound up the season by beating Montreal High 15-0.

The boys on the Junior team wish to thank the coach, Mr. C. R. Ford, for his kindest co-operation and his time given wholeheartedly to the team.

JUNIOR BASKETBALL

This year Junior Basketball had a very successful season taking the Section Championship, but losing to a powerful Baron Byng team for the Protestant title. In a total point, home and home series Baron Byng won by a score of 41-27.

In the opening game West Hill took Montreal West 15-12, only to lose to Westmount 25-23. In the next game, which was a close, hard-fought battle with Verdun, the game ended in a 20-20 score. Then in our remaining games we defeated Montreal West, Westmount and Verdun without much trouble, the scores being 30-16, 22-16 and 37-31.

The Players would like to take this opportunity to thank Mr. C. R. Ford for the time and effort he has put into the coaching of this team.

B. SPIES and T. O'BEAY, IX-L.

SENIOR "B" BASKETBALL

The Senior "B" team this year was not quite as good as those of some previous years. However, the team did very well considering it was composed of all new players except two who were on last year's team.

Of the ten League games West Hill won 5 and lost 5. Those that were lost were all close games and twice we lost by one basket only. The leading scorer was Geo. Flumerfeldt with 46 points and next was Harry Glen with 35 points. The team had only 169 points scored against them and finished in fourth place.

We wish to take this opportunity to thank Mr. Searle for his coaching and time. May West Hill continue to have good Senior "B" teams in years to come.

SENIOR "B" HOCKEY

This year's Senior "B" team consisted of four boys from last year's championship team and the remainder were mostly boys from last year's junior team. After many exhibition games and hours of practice at Lachine Arena, we won the first two games of the schedule. The third we lost to Lachine High, however, who later became City Champions. At the completion of the schedule West Hill ended up in third position. Even though not winning the championship the players enjoyed a good season of hockey.

On behalf of the team, I would like to take this opportunity of thanking Mr. Ebers, our coach, for giving us so much of his time to try and make a hockey team.

This was the first year that West Hill had a second Senior "B" team. The first team played in the Western Section and the second team played in the Eastern Section.

The team did reasonably well. Out of seven league games, two were won, and one ended in a draw. Probably the most exciting game was the last one against Mount Royal. The game ended in a 1-1 tie. It was decided to play overtime. Both teams came close to scoring, but the overtime period ended with the same score.

The team would like to express its gratitude to Mr. Goodwin, who gave much of his valuable time to coach the team.
E. NENNIGER, XI-D.

JUNIOR HOCKEY

Once again West Hill turned out a crack Junior Team, which took the Protestant honours, and only after a terrific struggle bowed out in the City finals. This year's aggregation was made up chiefly of bench warmers of last year's team, and boys from last year's Herbert Symonds Juniors.

West Hill played seven League Games, winning them all, and in doing so, ran up a remarkable record of scoring forty-nine goals, by only having four scored against them. West Hill then met Montreal High for the Protestant Championship, and after tying the first game 1-1; West Hill took the second game 3-1.

In the two game total series, for the City Championship, against Catholic High, West Hill fought hard but lost a heartbreaking series: 6-5 on a last-minute goal by Catholic High.

Much credit for the team's success is due to the fine coaching by Mr. Ebers, who spent a great deal of his time working with the boys in trying to make them a City Championship outfit.

SKI TEAM

This year the West Hill Ski Club was very successful under the excellent instruction and supervision of Mrs. F. H. Dillingham and Miss Bell. Every Tuesday found the Club on Murray Hill when weather permitted. Extra practices for the team were held on Mount Royal.

The Penguin Ski Club held their annual Downhill and Slalom races at St. Sauveur on March 10. Preceding this main event were the two Slalom races held on Mount Royal. These were very successful as it gave the girls practice for the St. Sauveur race.

The team consisted of Joanne Hewson, Shirley and Nancy Holmes, Shirley Hendry, Phyllis Harris and Jane Ware. As usual the girls did not shine but they did their best.

We wish the girls next year a season just as enjoyable as this year's.

JANE WARE, X-E.

SWIMMING

This year the W.H.H.S. swimming team came fourth in the inter-school swimming meet which was held last Autumn at the Community tank. G.H.S. came first, M.W. and Verdun were second and third. The swimmers on the W.H.H.S. team were Joan Tappenden, Frances Jeffrey, Sheila McLachlan, Alice Sykes, Emala Pike, Eleanor Anderson, Meredith Nixon and Phyllis Harris. The eighth year girls from Herbert Symonds entered a team in the meet this year and did very well; they had some really fine swimmers. The cup was keenly competed for and there was a great deal of excitement. We were very fortunate this year to have at the meet Mrs. Catherine Rowls Thompson and Mr. Athans who gave us a diving exhibition in which they executed some of the most difficult dives.

As usual the swimming was held at the Community tank on Tuesdays and there were many present. We would all like to thank Miss Williams and Miss Bell for their valuable help. The results of the inter-class swimming meet last year were: Francis Jeffrey, Junior Champ, and Phyllis Harris, Senior Champ.

BADMINTON

January saw the opening of a very successful badminton season under the excellent supervision of Miss Bell, and the beginning of an active participation in the ladder tournaments.

Enthusiastic players entered into the school tournaments which were won by Margaret Ambrose and Beverly Robertson as senior and school doubles champions, and Joanne Hewson and Lois Gold as junior doubles "champs".

In the senior inter-class tournaments, 11-C proved itself superior in the field, by defeating all opposition in tenth and eleventh years, and in the junior tournaments, 8-A walked off with top honours.

The important annual event was the Inter-School Tournament held at Arthur Currie Memorial Gym, on March 24, when Westmount again captured the trophy by edging Montreal West into second place and West Hill into third.

In the newly-formed Murray Inter-School League, West Hill emerged victorious by downing Commercial and Baron Byng High Schools.

The members of the team were:—Margaret Ambrose, Beverly Robertson, Madeleine Duchesnay, Pat Laing, Phyllis Harris, Jeanne Rae, Carmen Mathews, Elaine Allan, Joan Tappenden, Jane Ware, Adele Peron, Gwyneth Sproule, Pat Johnston, Joan Humphreys.

BASKETBALL

This year the Senior "A" and Senior "B" basketball teams did not win the championship as we had hoped. Our Senior "A" team came fourth in the League, they were strong opponents and showed good sportsmanship. Westmount won both Senior "A" and "B" championships.

The Senior "A" team consists of Adele Peron (Captain), Kay Langton, Margaret Corneil, Jeanne Rae, Pat Laing, Ruth Jesshope, Joan Jesshope, Phyllis Harris, Pat Johnston, Margaret Ambrose, Shirley McCurdy, Meredith Nixon.

Senior "B" team played well and had a few close games, but did not come up to the top of the League. This team consists of Jane Ware (Captain), Lorna Cunliffe, Virginia Lyons, Alice Sykes, Anita Potter, Joan Tappenden, Helen Day, Lorna Thompson, Margaret Smith, Isabel Birse, Marion Aiken and Dorothy Stanway.

The Inter-class Basketball was very successful under the leadership of Miss Bell. It was held on Monday afternoons for the 8th years, Monday afternoons for the 9th years, and on Wednesdays for the 10th and 11th years. The winning classes were Grades 8-E, 9-E and 11-C.

DOROTHY STANWAY, Grade 10-G.

EIGHTH YEAR GIRLS' ATHLETIC ACTIVITIES AT HERBERT SYMONDS

This year a larger number of Eighth Year girls than ever before participated in the after-school athletic activities. We had a swimming team which entered the inter-school races. Our Junior Basketball League Championship was won by William Dawson High School. Winter activities included skating and skiing and one of our girls was chosen for the West Hill ski team. We entered three teams in the Junior Badminton Tournament; our own baseball teams played inter-class games and several outside games were played by the school team. We hope next year's Eighth Years will have as much fun as we did.

BASEBALL 1944

The baseball season of '44 was an enjoyable one and was under the leadership of Miss Bell. The school team played some very good games, but Montreal High team proved to be the best, and won the cup. The school team consisted of: Dorothy Ritchie, Jeanne Rae, Pat Laing, Margaret Ambrose, Margaret Corneil, Beverly Robertson, Mary Fricker, Betty Beck, Jane Ware, Phyllis Harris, Janet Allen, Carman Mathews, Joyce Booth, Gwyneth Sproule, Beverley Condon, Beatrice Mueller, Joyce Scott.

The inter-class baseball was held on Wednesdays for X and XI years, and on Mondays for VIII and IX years. The champion team was that of X-A.

TENNIS

West Hill girls had an enjoyable tennis season this year. As the school courts were out of use due to war time conditions, the school tournaments were not held this year.

Westmount girls again proved themselves tops in tennis when they won the Inter-School Tournaments. Montreal High came second. The 1st doubles of our team were Madeleine Duchesnay and Margaret Ambrose; 2nd doubles, Pat Johnston and Carman Mathews; 3rd doubles, Jane Ware and Elaine Allan; 4th doubles, Jeanne Hewson and Jeanne Rae. Doing his part . . .

MAKING GOOD MONEY, TOO!

Servicing newspaper home-delivery routes is the most popular of all spare-hour tasks for teen-age boys in wartime, for two reasons:

FIRST: Because an ambitious boy can earn more money the year 'round with a good newspaper route than he can at almost any other part-time task. Being in business for himself, his earnings are limited only by his own ability to sell and serve.

SECOND: Because it gives him a great opportunity to help the war-winning effort. Being a newspaper carrier is a highly essential service to his community and country—a patriotic part he is proud to play!

BOYS: See if we have openings for you to enjoy the benefits of serving wartime newspaper routes.

We may not be as *hep to squares* as we once were, but get around to 'student styles' and we're right in there *pitchin'*. We've never found it a problem to outfit the *young-bloods* for the simple reason that we have the clothes they like and want and it's only the matter of choosing the right size and shade from our *solid* selections of students' apparel.

Looks happy - doesn't he! BUT . . .
one Whiff of DI-CHLORICIDE

Will destroy MR. MOTH and all his offspring in a jiffy. It's a fact! DI-CHLORICIDE kills moths and worms instantly because its deadly vapour creeps into every fold, seam and lining of every garment in your closet or trunk. So pleasant and safe to use too—leaves no moth-ball odour and won't harm the most delicate fabrics.

Ask your druggist for a package today!
Moths Die in Di-Chloricide

WAR COMES FIRST

The Department of Munitions and Supply at Ottawa announced a short time ago that up to December 31 last, Canada had spent 336 million dollars on the single item of communications equipment for war purposes. This explains why telephones are so scarce here at home. War needs of course must come first; civilians must wait.
